

# ANALAMAZAOTRA NATIONAL PARK

**Category:** National Park, Category II

**Manager:** Madagascar National Parks (MNP)

**Area:** 810 ha

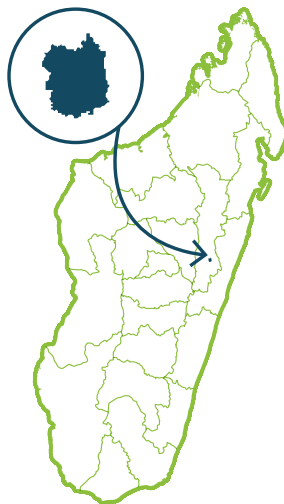

**Geolocation:** Province of Toamasina; Region of Alaotra Mangoro, District of Moramanga

**International label:** Key Biodiversity Area (KBA), Important Bird Area (IBA)

**Start of FAPBM grants:** 2023

## FLAGSHIP SPECIES

The park mainly houses a mid-altitude dense moistevergreen forest. Despite its small size, it has a high biological diversity for both fauna and flora.

**135**  
SPECIES OF BIRDS

including **6** endangered (e.g. Madagascar grebe) and **8** vulnerable species (e.g. Madagascar red owl, Madagascar rail)

**12**  
SPECIES OF LEMURS

including **3** critically endangered (e.g. *Indri indri*), **2** endangered (e.g. Aye-aye), and **6** vulnerable species

**59**  
SPECIES OF REPTILES

including **1** locally endemic, **1** critically endangered, **2** endangered, and **2** vulnerable species

**20**  
SPECIES OF OTHER MAMMALS

including **1** endangered species

**12**  
SPECIES OF BATS

including **2** vulnerable species (e.g. Madagascar flying fox).

**64**  
SPECIES OF AMPHIBIANS

including **2** locally endemic, **1** of which is endangered, **4** others endangered, and **2** vulnerable

**5**  
SPECIES OF CARNIVORANS

including **3** vulnerable species (e.g. Fossa, Malagasy civet)

**1 125**  
SPECIES OF PLANTS

including **843** endemic to Madagascar, of which **3** are critically endangered, **3** are endangered, **5** are vulnerable and **13** locally endemic, of which **3** are critically endangered

## PROTECTED AREA SPECIFICITIES

### LANDSCAPES AND HABITATS

Mid-altitude evergreen dense moistevergreen forest, secondary forest.

### PRESSURES AND THREATS

Deforestation for shifting cultivation and land grabbing, fires, illegal logging, collection of non-timber forest products.

### ECONOMIC VALUE

It is a source of revenues and represents **an employment opportunity for local communities and private operators** through ecotourism.

### LOCAL COMMUNITIES INITIATIVES

Like all the Protected Areas (PAs) managed by MNP, **the management of the Analamazaotra National Park** is a **collaborative co-management** with the participation of members of local communities in conservation and development activities. They are brought together in the CLPs (Local Park Committees) and COSAPs (Orientation and Support of Protected Areas Committees).

### FAPBM'S EFFORTS AND RESULTS

For the PAs managed by MNP, **FAPBM secures part of salary costs and operating expenses for the management unit..**
